

## The Garden Club of Honolulu

### Solicitation of Education Scholarship Fund Scholarship Suggestions and Grant Requests

The Education/Scholarship Fund is to be used for educational purposes, including grants and scholarships. Requests need only fall within the purpose of our club. As reflected in the creation of the Virginia Canfield/Garden Club of Honolulu Internship Program and the Club's gift to Dean Maria Gallo of the College of Tropical Agriculture & Human Resources we are happily on the move to broaden our community impact.

To that end, please help us in two ways:

1. Through you, we want to reach out to the community for internship grant requests. The guidelines are simple. The internship program must fall within the mission of our Club. Detailed reporting on use of the funds and results achieved will be required and a member of the Club is needed to sponsor the requesting agency/entity. Internship/grant requests should be forwarded to Diane Hastert.

**The deadline for Internship Grant requests is FEBRUARY 15, 2016.**

2. Since 2005, the GCH has awarded a scholarship to a student or students at Windward Community College studying bio-resource development or plant biotechnology. This scholarship has been gratifyingly successful. We can, however, consider other scholarships if members have ideas they would like to consider. If you have any ideas please forward them to Diane Hastert.

**The deadline for scholarship suggestions is FEBRUARY 15, 2016.**
